

# JoeKubeshesky.com

JoeKubeshesky.com is a portfolio website that displays Joe Kubeshesky's education and skills.

JoeKubeshesky.com provides companies a chance to look at my education portfolio and is an additional piece to my resume. This portfolio website will show companies what classes I took at my time during my information science undergrad at Michigan State University. In addition to classes it will show what projects I was involved in making in my classes along with the process behind those projects. It will also show what skills I learned during my time at Michigan state along with my contact information.

## Personas

**Company recruiter**

Job recruiter looking at my UX projects

**Friend**
